about
LABORATORY ANALYSIS POLICY**

Laboratory analysis will be applied to certain product types. The sample can be collected from the materials or finish goods (products).

Product	Sample Products	Test target	Samples taken
Processed meat or the products that use meat (including chicken meat). Excluding seasoning products, fats and fatty acids	Meatballs, sausages, patties, minced meat, corned meat, marinated meat, smoked meat, flour meat, jerky, shredded, nuggets, salami, pastrami and other processed meat products.	Pig Protein ⁽¹⁾	Finish goods ⁽²⁾
Seasoning products that use animal parts such as meat, bones, skin, etc.	Seasoning ribs using beef bones, spaghetti sauce containing meat.	Porcine DNA	Finish goods ⁽²⁾

Product	Sample Products	Test target	Samples taken
Consumer goods that use animal parts	Bag leather,brush of feathers,glass of bone	Skin: Pig skin structure/ porcine Bone and fur/hair/bristle: porcine	Raw material Example : Leathers
Restaurant/catering/kitchen menus that use meat* that has been repacked/re-labeled/physically processed by the supplier. Supplier does not have halal certificate/HAS status. * Excluding chicken	1. The soup menu uses meat that is repacked by the supplier. 2. Steak menu that uses meat materials that have been cut by suppliers 3. Meatball menu that uses meat that is ground by the supplier	Pig Protein ⁽¹⁾	Raw material ⁽³⁾ Example : Cattle Meat, Goat Meat Goats
Restaurant/catering/kitchen menus that use processed beef/lamb or mutton /camel materials that have been repacked/re-labeled by the supplier. Supplier does not have halal certificate / HAS status.	Soup menu that uses beef meatballs that have been re-labeled by the supplier	Pig Protein ⁽¹⁾	Raw material ⁽³⁾ Example : Beef meatballs
Restaurant/catering/kitchen menus that use seasoning materials from animals that have been repacked/re-labeled by the supplier. Supplier does not have halal certificate / HAS status.	Repacked soup menu using oxtail seasoning.	Porcine DNA	Raw material ⁽³⁾ Example : Repacked oxtail seasoning.

Product	Sample Products	Test target	Samples taken
Animal derivative products	Beef extract, gelatin (including fish), collagen, heparin, deoxycholic acid, chondroitin sulfate, etc.	Porcine DNA	<p>Raw material : If the product is collagen, heparin, deoxycholic acid</p> <p>Final products : If the product is extracts from animal meat, gelatin (including from fish), chondroitin sulfate</p>
Products that use gelatin, including gelatin from fish as a raw material/additive	Capsule shell , <i>gummy candy, marshmallow</i> , cake, etc.	Porcine DNA	Raw materials and finish goods ⁽⁴⁾
Products that use gelatin as a processing aid	Resins that use gelatin as a dispersant agent, juices that use gelatin as a clarifying agent, etc.	Porcine DNA	Raw material (gelatin)

Product	Sample Products	Test target	Samples taken
Medicines / supplements that use empty capsule from animal source which are repacked / re-labeled by the supplier Supplier does not have halal certificate / HAS status.	Supplements that use gelatin capsule where the capsule have been repacked by suppliers who do not have HAS status.	Porcine DNA	Raw material (capsule shell)
Cosmetics that contain extracts from animal placenta	A night cream that uses placenta extract.	Porcine DNA	Raw material (placenta extract)
Enzymes from animal sources	Protease enzymes from calf stomach	Porcine DNA	Finish goods ⁽²⁾
Products using enzymes from the animal sources as a raw material or additive	Medicines with enzyme for digestion	Porcine DNA	Finish goods ⁽²⁾
Products that use enzymes from animal sources as a processing aids	<i>Soy peptone</i> which is hydrolyzed with <i>pancreatic enzyme</i>	Porcine DNA	Raw material (animal enzymes)
Beverages suspected containing of ethanol ≥ 0.5 % .	Fruit juice drink with added high ethanol flavor, fermented milk drink , kombucha tea , etc.	Ethanol residue	Finish goods ⁽²⁾

Product	Sample Products	Test target	Samples taken
Cosmetic products and election inks that are classified as <i>waterproof / water resistant</i>	<ol style="list-style-type: none"> 1. Election ink 2. Mascara 3. Liquid eyeliner 4. Nail Polish 5. Other cosmetic products that are classified as <i>waterproof / water resistant</i> 	Water permeability	Finish goods ⁽²⁾

⁽¹⁾ If the pig protein analysis result is positive, a further analysis will be carried out with Porcine DNA as a target.

⁽²⁾ If a product has not been produced or has no stock, the laboratory analysis can be represented by the other product that is produced in the same facility and uses the same animal materials

⁽³⁾ All samples repacked / re-labeled / reduced by the supplier must be available for laboratory analysis.

⁽⁴⁾ Samples were taken in the form of material (gelatin) from all alternative producers and representatives of products that have different processes.
